

PHYSIOTHERAPY & MASSAGE

NOBU

Ref. CFMC03A.A66

Portable massage chair with an ergonomic design, created to ensure the user's postural alignment during therapeutic sessions. It features a multi-adjustment system allowing for the regulation of the headrest, backrest, seat, armrests, and knee supports in both height and inclination, adapting to different body types. Its foldable structure facilitates transport and storage without compromising operational stability. The smooth-surface padding provides prolonged comfort and allows for easy cleaning, promoting hygiene in professional settings.

Features: •Unfolded dimensions: 54x74x125 (length x width x height)

•Folded dimensions: 26x135 cm (width x height)

•Weight: 10 kg

•Maximum load: 180 kg

•Foam thickness: 5 cm

•PU upholstery

•Lightweight aluminum frame

•Adjustable headrest

•Removable chest support

•Removable armrests

•Removable seat

•Includes: Carrying bag

•CE Certifications: 93/42/EEC Medical Devices Directive
