

PHYSIOTHERAPY & MASSAGE

KEND PRO

Ref. EL03PRO29.A66.WF

This short-head treatment table offers a solid and stable platform for performing professional treatments. Equipped with a gas-assisted backrest and head section, along with a smooth-operating Hi-Lo lifting system, it provides an excellent balance between performance, comfort, and cost-effectiveness. Its optimized design facilitates patient access and enhances the ergonomics for the professional during therapy sessions.

Features:

- Adjustable angle design in the head section from -55° to +45° and in the leg section from 0° to +75°
- Hydraulic Hi-Lo system operated via a side foot pedal
- Sleek design with rounded structure legs for added safety
- Head section with face hole and plug for maximum comfort in the prone position
- Closed base with a refined design that covers all technical components and facilitates cleaning of the table
- Adjustable legs for uneven surfaces and silent wheels ensuring smooth and quiet movement
- Optimized minimum and maximum height, with a lifting range of 50.5 cm
- Padding thickness of 5 cm and foam density of 36 kg/m³
- Upholstered in fire-retardant PVC vinyl compliant with BS 5852 standard, resistant to stains, mold, and wear (150,000 cycles)
- Maximum load capacity: 250 kg
